

# OpenEmbedded

Philip Balister, OpenSDR ([philip@opensdr.com](mailto:philip@opensdr.com))

OpenEmbedded board chairman, Yocto Project Advisory Board

# What is OpenEmbedded?

- Started as a build system for devices like Sharp Zaurus
- Focus has been on small embedded devices
- Reproducible builds
- License compliance
- Track changes to systems over time
- Large active community
- Broad commercial adoption
- Layer approach, openembedded-core
  - Add specialized capability with additional layers

# OpenEmbedded history
